To cope with skyrocketing medical costs, more and more employers and individuals are choosing major medical insurance policies that have increased deductibles and co-payments. While these plans often make health insurance premiums more affordable, they also shift responsibility for a large portion of health care costs to you.

Accident Expense Plus is perfect for individuals and families who would like to experience fewer out-of-pocket medical expenses in the case of an accident or critical illness.

Imagine a financial tool that:

- Rapidly reimburses you for a wide variety of covered medical expenses related to accidents
- Helps cover deductibles, co-pays and other expenses not covered by your primary major medical plan
- Pays medical benefits to you regardless of other coverage you have
- Can also provide a lump sum payout if you're diagnosed with any of three major critical illnesses^{2,3}

That's Accident Expense Plus—an economical and intelligent way to protect your family from today's high health care costs. Accident Expense Plus can provide benefits for a wide range of accident-related costs, from emergency room visits to physical therapy to diagnostic exams—even surgery. The “plus” is an optional Critical Illness Rider that can pay a lump sum benefit if you're diagnosed with invasive cancer, heart attack or stroke.

Did you know?

Accidents occur more frequently than you might think.

- About 1 out of every 9 Americans seek medical attention for an injury each year⁴

Accident Expense Plus® Case Studies

Maria, 33, graphic designer

A broken leg won't stop this leap into self-employment

Leaving the corporate world to start her own graphic design business was a big step for Maria. One of her biggest concerns was medical insurance—could she find affordable coverage?

Maria purchased a major medical plan with a low premium—but a \$5,000 deductible. To help cover her high deductible and coinsurance costs, she supplemented the policy with an Accident Expense Plus plan. She opted for the \$7,000 per

calendar year accident benefit with a \$250 deductible.

Three months later, Maria fell, breaking her leg in two places. Her injury required an emergency room visit, surgery to reset the bone, three months in a cast and six weeks of physical therapy. The medical bills could have derailed her business plans, but since Maria had an Accident Expense Plus policy, her only expense was the \$250 deductible. Broken leg or not, Maria kept marching steadily toward her goals.

Jack, 16, rising basketball star

Out-of-network specialist is an affordable part of the team

Needed treatment from a specialist outside the network of their major medical plan

John and Samantha are proud parents—their son Jack is an outstanding student who is also becoming a highly recruited basketball star. When he fractured his wrist in the playoffs last year, the family's doctor referred him to a specialist outside their major medical carrier's network.

Thanks to the family's Accident Expense Plus policy, John and Samantha were promptly

reimbursed for their out-of-network expenses and received additional benefits for the treatment and physical therapy. Jack made a full recovery and is back on the court this season. His bank shot—and his parents' bank accounts—are as strong as ever.
