Humana.

How your plan works

HMO

Health maintenance organization (HMO)

HMO plans have their own network of doctors, hospitals and other healthcare providers. You receive care within the HMO network, which generally means your monthly premium is lower and you may expect to pay less out of pocket.

A Humana HMO plan gives you services you don't get with Original Medicare, which may include:

- Access to virtual and in-home providers in the network*
- Access to mail-order pharmacies, for up to a three-month supply of maintenance and diabetic supplies
- SmartSummary®, a personalized update that shows you how you've used your plan and what you've spent to help you get the most from your plan
- Rx Calculator to help estimate your monthly drug costs
- Preventive dental coverage with two free cleanings a year. Or, get $500 or more a year to cover many dental bills. That includes cleanings, exams, and more.†
- Tier 1 prescriptions with no copays or deductibles. And $0 for eight routine vaccines, plus shingles. At any network pharmacy.

Using your HMO plan

- You choose an in-network primary care physician (PCP) to coordinate your care.
- To see a specialist, you need a referral from your PCP on most plans.
- Any care you receive outside your HMO network is only covered in true emergencies.

* You may pay a lower cost share by seeing in-network doctors, which may save you money.

† $500 or more dental coverage for in-network services, excluding cosmetic.

How your plan works

PPO

Preferred provider organization (PPO)

PPO plans give you the freedom to receive care in or out of network. You can see any doctor or specialist or go to any hospital. PPO plans tend to have higher monthly premiums and offer predictable copayments and coinsurance. If you choose to see a provider in the network, you may save by paying a lower cost share.

A Humana PPO plan gives you services you don't get with Original Medicare, which may include:

- Access to virtual and in-home providers in the network*
- Access to mail-order pharmacies, for up to a three-month supply of maintenance and diabetic supplies
- SmartSummary®, a personalized update that shows you how you've used your plan and what you've spent to help you get the most from your plan
- Rx Calculator to help estimate your monthly drug costs
- Preventive dental coverage with two free cleanings a year. Or, get $500 or more a year to cover many dental bills. That includes cleanings, exams, and more.†
- Tier 1 prescriptions with no copays or deductibles. And $0 for eight routine vaccines, plus shingles. At any network pharmacy.

Using your PPO plan

- Many of our plans provide emergency care coverage while you are traveling worldwide.
- You can see any doctor or use any hospital that accepts Medicare and the plan terms.
- Generally, you don't need a referral from your primary care physician (PCP) to see a specialist.

* You may pay a lower cost share by seeing in-network doctors, which may save you money.

† $500 or more dental coverage for in-network services, excluding cosmetic.

Humana.

How your plan works

PFFS

Private fee-for-service (PFFS)

PFFS plans give you the flexibility to see almost any Medicare-approved doctor, as long as the doctor accepts Humana's terms and conditions. PFFS plans determine how much doctors, providers and hospitals will receive and the amount you pay for care.

A Humana PFFS plan gives you services you don't get with Original Medicare, which may include:

- Full coverage for most annual preventive screenings, prescription drugs, inpatient care and emergency care anywhere in or outside of the U.S.
- Access to virtual and in-home providers in the network*
- Access to mail-order pharmacies, for up to a three-month supply of maintenance and diabetic supplies
- SmartSummary®, a personalized update that shows you how you've used your plan and what you've spent to help you get the most from your plan
- Rx Calculator to help estimate your monthly drug costs
- Preventive dental coverage with two free cleanings a year. Or, get $1,000 or more a year to cover many dental bills. That includes cleanings, exams, and more.†
- Tier 1 prescriptions with no copays or deductibles. And $0 for eight routine vaccines, plus shingles. At any network pharmacy.

Using your PFFS plan

- This plan may offer more freedom to choose providers.
- You don't need a referral to see a specialist.
- Providers must accept Medicare and bill the plan per its terms and conditions.
- Be sure to always take your member ID card with you and clarify coverage before you receive services.

* You may pay a lower cost share by seeing in-network doctors, which may save you money.

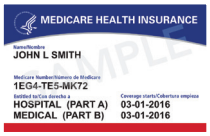
† $1,000 or more dental coverage for in-network services, excluding cosmetic.

Understanding your Medicare options

To help you decide the best fit for you, here is an overview of the Medicare options and what each one covers. **Follow these 2 steps to get started:**

Step 1 — Enroll in Original Medicare—offered by the federal government

Part A helps pay for hospital stays and inpatient care.



Part B helps pay for doctor visits and outpatient care.

Step 2 — After enrolling in Original Medicare, you can choose from various types of coverage—offered by private companies

Option 1: Choose a Medicare Advantage plan

OR

Option 2: Add one or both of the following to Original Medicare

Medicare Part C (Medicare Advantage) is made up of Part A, Part B and may include Part D (prescription drug benefits) as well as extra benefits like coverage for hearing, dental and vision.

Medicare Part D is a stand-alone prescription drug plan.

Medicare Supplement insurance (Medigap) plans help pay for some of Original Medicare's out-of-pocket costs.

Humana.

Understanding the coverage gap

Most Medicare prescription drug plans have a coverage gap where you may have to pay a higher percentage of drug costs.

Stage 1
Deductible

You pay all costs until the deductible is met.

Stage 2
Initial coverage

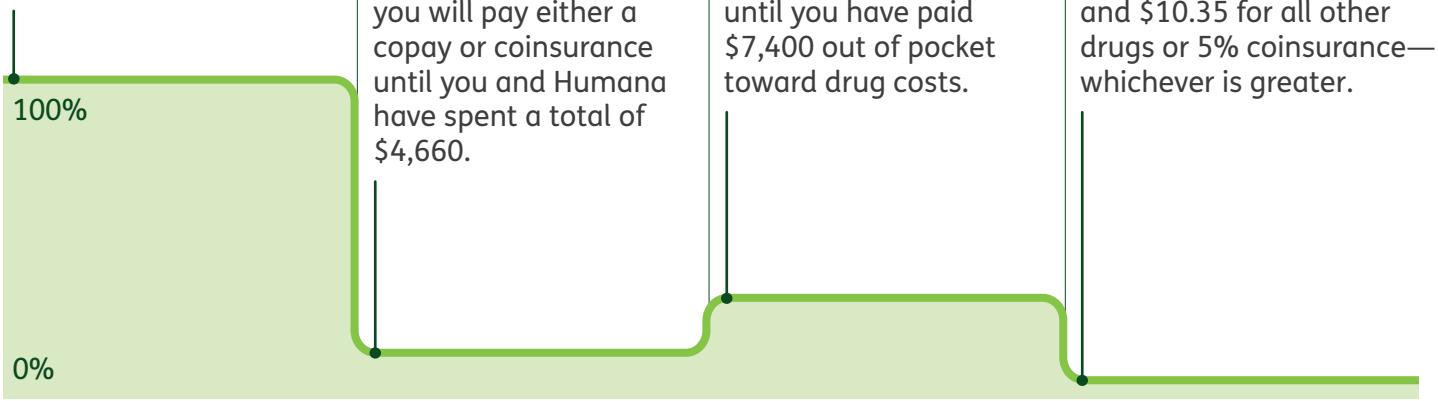
You and Humana split costs. For most plans, you will pay either a copay or coinsurance until you and Humana have spent a total of $4,660.

Stage 3
Coverage gap

You are paying no more than 25% of total costs until you have paid $7,400 out of pocket toward drug costs.

Stage 4
Catastrophic coverage

You pay $4.15 for generic/preferred drugs and $10.35 for all other drugs or 5% coinsurance—whichever is greater.



Your share of drug costs

Stage 1: Deductible—you pay 100%

- A deductible is the amount you pay of your medication costs before your plan pays its share.
- Some plans do not have a deductible for Tier 1 and Tier 2.

Stage 2: Initial coverage—shared cost with insurance company

- For most plans, both you and your insurance plan pay medication costs until the shared total drug costs equal $4,660.
- You're generally responsible for copays and coinsurance during this stage.

Stage 3: Coverage gap

- The coverage gap begins after you and your plan have spent $4,660 for covered drugs, and ends when your out-of-pocket cost reaches $7,400 for them.
- In this stage, you pay no more than 25% of the cost of brand-name and generic drugs.
- Any medication-related deductible, discounts you receive on covered brand-name drugs, coinsurance, copayments and the amounts you pay in the coverage gap count toward the $7,400 limit.

Stage 4: Catastrophic coverage stage—follows the coverage gap

- This stage begins when you reach the $7,400 coverage gap limit.
- In this stage, you pay $4.15 for generic/preferred drugs and $10.35 for all other drugs, or 5% of your medication costs—whichever is greater.

Find a Doctor with Care Highlight

Need help finding a doctor? Our Find a Doctor page at **Humana.com/FindADoctor** can help. Plus, we can help you make sure it's the right doctor for you, with a physician rating system that has earned National Committee for Quality Assurance (NCQA) accreditation.

To help you make more informed choices about your healthcare, Care Highlight® recognizes doctor practices that meet quality and cost-efficiency guidelines. You can find a doctor's ratings** on the Humana Find a Doctor tool when we have enough information to measure a doctor's quality and cost-efficiency.

This system is built on two graphic icons: a heart and a badge

Highest rating

Lowest rating

Highest rating

Lowest rating

Clinical quality is based on quality of care, or the effectiveness of treatment that members received.

Cost-efficiency is based on the cost of treatment that members received compared to the cost of treatment by similar physicians.

Care Highlight is intended for informational purposes only. Quality of care and cost-efficiency ratings are available in most (but not all) states and are not available for all specialists. Members have access to all physicians in the Humana network whether or not the physician has received a Care Highlight rating. Ratings should not be the sole basis for selecting a doctor. Humana does not give performance-based payments to doctors based on these ratings. Ratings do not guarantee the quality or outcome of healthcare services.

→ Learn more at **Humana.com/CareHighlight**.

** Ratings are not available in Alaska.

Humana.

The Humana difference

We help make it easier to get checkups, sick visits and wellness checks virtually or telephonically, when it's most comfortable and convenient for you. There are providers available in the network that provide home healthcare or virtual visits. Check the Find a Doctor tool to see if there are doctors in your area that offer home healthcare or virtual visits. Not all doctors offer home healthcare or virtual visits.

Eligible members may receive individualized care at home for primary, urgent and more serious conditions, which may be included in your Medicare Advantage plan.

Home healthcare offers:

Comfort: Have peace of mind being at home, where you are most at ease.

Convenience: No more stress of traveling to the doctor, sitting in waiting rooms or being transported to another facility. Care for yourself at home and receive help if you need it.

Individualized care: Get personalized one-on-one time with providers who address your needs and prescribe the right medication.

Continuity of care: Help minimize the risk of falling after surgery or being exposed to other illnesses.

Cost: Get the most from your plan with affordable at-home care rather than extending your hospital stay. Most services have the same copays you'd have at facilities. Call the number on the back of your Humana medical ID card to see if they are available near you.

→ For more information on home healthcare services that may be available to you, visit **Humana.com/Home-Care**

Virtual visits

Connect with a doctor without leaving home†† over your computer, tablet or phone. You may be able to receive care from your own doctor—just ask.

Medical virtual visits, also known as telehealth or telemedicine, are a convenient way to get treatment for many nonemergency injuries or illnesses, order lab tests, get medication refills and even help you and your PCP manage certain chronic conditions. You can make an appointment or receive care on demand, and your information may be shared with your PCP. You can also schedule virtual emotional health visits to talk to a doctor about a variety of nonemergency mental and emotional health issues.

Not all providers offer telehealth services.

→ Visit **Humana.com/VirtualVisits** to learn more.

At Humana, we strive to help our members achieve total health so that they may live their best lives, which includes efforts to provide our members with access to more affordable prescription drugs.

With the passing of the Inflation Reduction Act, all Medicare Advantage plans will have enhanced benefits in 2023:

Effective April 1, 2023, some rebatable Part B drugs may be subject to a lower coinsurance. This means beginning April 1, 2023, some Part B drugs will have a lower coinsurance than your standard part B drug coinsurance to help avoid increased cost for your Part B drugs. Any coinsurance adjustments will be made by the pharmacy at the time of purchase. Note, this does not impact your Part D prescription drug coverage.

Effective July 1, 2023, cost sharing for covered Part B Insulin furnished through a covered item of durable medical equipment will be no more than $35 for a one-month (up to 30-day) supply and if your plan has a deductible, it does not apply to Part B Insulin. Part B Insulin is most commonly used through an insulin pump.

Note, plan information provided in your previous member materials may not reflect these 2023 benefit enhancements from the passing of the Inflation Reduction Act.

More about Humana Gold Plus H0028-025 (HMO)

Do you have Medicare and Medicaid? If you are a dual-eligible beneficiary enrolled in both Medicare and the state's program, you may not have to pay the medical costs displayed in this booklet and your prescription drug costs will be lower, too.

If you have Medicaid, be sure to show your Medicaid ID card in addition to your Humana membership card to make your provider aware that you may have additional coverage. Your services are paid first by Humana and then by Medicaid.

As a member you must select an in-network doctor to act as your Primary Care Provider (PCP). Humana Gold Plus H0028-025 (HMO) has a network of doctors, hospitals, pharmacies and other providers. If you use providers who aren't in our network, the plan may not pay for these services.

Humana®

Welcome to Humana!

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take. When this drug list (formulary) refers to "we," "us", or "our," it means Humana. When it refers to "plan" or "our plan," it means Humana. This document includes a partial list of the drugs (formulary) for our plan which is current as of April 2023. For a complete, updated formulary, please contact us on our website at **Humana.com/PlanDocuments** or you can call the number below to request a paper copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages. You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1 of each year, and from time to time during the year.

What is the abridged Humana Medicare formulary?
A formulary is the entire list of covered drugs or medicines selected by Humana. The terms formulary and Drug List may be used interchangeably throughout communications regarding changes to your pharmacy benefits. Humana worked with a team of doctors and pharmacists to make a formulary that represents the prescription drugs we think you need for a quality treatment program. Humana will generally cover the drugs listed in the formulary as long as the drug is medically necessary, the prescription is filled at a Humana network pharmacy, and other plan rules are followed. For more information on how to fill your medicines, please review your Evidence of Coverage.

This document is a partial formulary, which means it includes only some of the drugs covered by Humana. To search the complete list of all prescription drugs Humana covers, you can visit **Humana.com/medicaredruglist**. The Drug List Search tool lets you search for your drug by name or drug type.

For help or a complete list of covered drugs, please contact Humana Customer Care with any questions at 1-800-457-4708 **(TTY: 711)**. five days a week April 1 – September 30 or seven days a week October 1 – March 31 from 8 a.m. - 8 p.m. (EST). Our automated phone system is available after hours, weekends, and holidays. Our website is also available 24 hours a day 7 days a week, by visiting **Humana.com**.

Can the formulary change?
Most changes in drug coverage happen on January 1, but we may add or remove drugs on the Drug List during the year, move them to different cost sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs**. We may immediately remove a brand name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our Drug List, but immediately move it to a different cost sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
  - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below titled "How do I request an exception to the Humana Formulary?"
- **Drugs removed from the market**. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.
- **Other changes**. We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to market to replace a brand name drug currently on the formulary or add new restrictions to the brand name drug or move it to a different cost sharing tier or both. Or we may make

changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.

We will notify members who are affected by the following changes to the formulary:
- When a drug is removed from the formulary
- When prior authorization, quantity limits, or step-therapy restrictions are added to a drug or made more restrictive
- When a drug is moved to a higher cost sharing tier

If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below titled "How do I request an exception to the Humana Formulary?"

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2023 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2023 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

What if you are affected by a Drug List change?
We will notify you by mail at least 30 days before one of these changes happens or we will provide a 30-day refill of the affected medicine with notice of the change.

The enclosed formulary is current as of April 2023. We will update the printed formularies each month and they will be available on **Humana.com/medicaredruglist**.

To get updated information about the drugs that Humana covers, please visit **Humana.com/medicaredruglist.** The Drug List Search tool lets you search for your drug by name or drug type.

Please contact Humana Customer Care with any questions at **1-800-457-4708 (TTY: 711)**, five days a week April 1- September 30 or seven days a week October 1 – March 31 from 8 a.m. – 8 p.m. (EST). Our automated phone system is available after hours, weekends, and holidays. Our website is also available 24 hours a day 7 days a week, by visiting **Humana.com**.

How do I use the formulary?
There are two ways to find your drug in the formulary:

Medical condition
The formulary starts on page 12. We have put the drugs into groups depending on the type of medical conditions that they are used to treat. For example, drugs that treat a heart condition are listed under the category "Cardiovascular Agents." If you know what medical condition your drug is used for, look for the category name in the list that begins on page 12. Then look under the category name for your drug. The formulary also lists the Tier and Utilization Management Requirements for each drug (see page 6 for more information on Utilization Management Requirements).

Alphabetical listing
If you are not sure about your drug's group, you should look for your drug in the Index that begins on page 28. The Index is an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed. Look in the Index to search for your drug. Next to each drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of the drug in the first column of the list.

Prescription drugs are grouped into one of five tiers.
Humana covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

- **Tier 1 - Preferred Generic:** Generic or brand drugs that are available at the lowest cost share for the plan
- **Tier 2 - Generic:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 1 Preferred Generic drugs
- **Tier 3 - Preferred Brand:** Generic or brand drugs that the plan offers at a lower cost to you than Tier 4 Non-Preferred drugs
- **Tier 4 - Non-Preferred Drug:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 3 Preferred Brand drugs
- **Tier 5 - Specialty Tier:** Some injectables and other high-cost drugs

How much will I pay for covered drugs?
Humana pays part of the costs for your covered drugs and you pay part of the costs, too.

The amount of money you pay depends on:

- Which tier your drug is on
- Whether you fill your prescription at a network pharmacy
- Your current drug payment stage - please read your Evidence of Coverage (EOC) for more information

If you qualified for extra help with your drug costs, your costs may be different from those described above. Please refer to your Evidence of Coverage (EOC) or call Customer Care to find out what your costs are.

Are there any restrictions on my coverage?
Some covered drugs may have additional requirements or limits on coverage. These are called Utilization Management Requirements. These requirements and limits may include:

- **Prior Authorization (PA):** Humana requires you to get prior authorization for certain drugs to be covered under your plan. This means that you will need to get approval from Humana before you fill your prescriptions. If you do not get approval, Humana may not cover the drug.
- **Quantity Limits (QL):** For some drugs, Humana limits the amount of the drug that is covered. Humana might limit how many refills you can get or how much of a drug you can get each time you fill your prescription. For example, if it is normally considered safe to take only one pill per day for a certain drug, we may limit coverage for your prescription to no more than one pill per day. Some drugs are limited to a 30-day supply regardless of tier placement.
- **Step Therapy (ST):** In some cases, Humana requires that you first try certain drugs to treat your medical condition before coverage is available for another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Humana may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Humana will then cover Drug B.
- **Part B versus Part D (B vs D):** Some drugs may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted to Humana that describes the use and the place where you receive and take the drug so a determination can be made.

For drugs that need prior authorization or step therapy, or drugs that fall outside of quantity limits, your health care provider can fax information about your condition and need for those drugs to Humana at **1-877-486-2621**. Representatives are available Monday - Friday, 8 a.m. - 8 p.m. (EST).

Insulin Savings Program
Your plan participates in the Insulin Savings Program which provides affordable, predictable copayments for Select Insulins through the first three drug payment stages (Deductible (if applicable), Initial Coverage, and Coverage Gap) of the Part D benefit. To find out more about the Insulin Savings Program, visit **Humana.com/insulin** or refer to your Evidence of Coverage for additional details.

To identify which Select Insulins are included within in the Insulin Savings Program, look for the ***ISP*** indicator in the Utilization Management column.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 12.

You can also visit **Humana.com/medicaredruglist** to get more information about the restrictions applied to specific covered drugs.

You can ask Humana to make an exception to these restrictions or limits. See the section "**How do I request an exception to the formulary?**" on page 7 for information about how to request an exception.

What if my drug is not on the formulary?
If your drug is not included in this list of covered drugs, visit **Humana.com/medicaredruglist** to see if your plan covers your drug. You can also call Customer Care and ask if your drug is covered.

If Humana does not cover your drug, you have two options:
- You can ask Customer Care for a list of similar drugs that Humana covers. Show the list to your doctor and ask him or her to prescribe a similar drug that is covered by Humana.
- You can ask Humana to make an exception and cover your drug. See below for information about how to request an exception.

Talk to your health care provider to decide if you should switch to another drug that is covered or if you should request a formulary exception so that it can be considered for coverage.

What is a compounded drug?
A compounded drug is used to provide drug therapies that are not commercially available as FDA-approved finished products in the same dose, formulation, and/or combination of ingredients, but are instead created by a pharmacist by combining or mixing ingredients to create a prescription medication customized to the needs of an individual patient. While some compounded drugs may be Part D eligible, most compounded drugs are non-formulary drugs (not covered) by your plan. You may need to ask for and receive an approved coverage determination from us to have your compounded drug covered.

How do I request an exception to the Humana formulary?
You can ask Humana to make an exception to the coverage rules. There are several types of exceptions that you can ask to be made.
- **Formulary exception:** You can request that your drug be covered if it is not on the formulary. If approved, this drug will be covered at a pre-determined cost sharing level, and you would not be able to ask us to provide the drug at a lower cost sharing level.
- **Utilization restriction exception:** You can request coverage restrictions or limits not be applied to your drug. For example, if your drug has a quantity limit, you can ask for the limit not to be applied and to cover more doses of the drug.
- **Tier exception:** You can request a higher level of coverage for your drug. For example, if your drug is usually considered a non-preferred drug, you can request it to be covered as a preferred drug instead. This would lower how much money you must pay for your drug. Please remember a higher level of coverage cannot be requested for the drug if approval was granted to cover a drug that was not on the formulary. *You can ask us to cover a formulary drug at a lower cost-sharing level, unless the drug is on the specialty tier.*

Generally, Humana will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost sharing drug, or other restrictions would not be as effective in treating your health condition and/or would cause adverse medical effects.

You should contact us to ask for an initial coverage decision for a formulary, tier, or utilization restriction exception.

When you ask for an exception, you should submit a statement from your health care provider that supports your request. This is called a supporting statement.

Generally, we must make the decision within 72 hours of receiving your health care provider's supporting statement. You can request a fast, or expedited, exception if you or your health care provider thinks your health would seriously suffer if you wait as long as 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we receive your health care provider's supporting statement.

Will my plan cover my drugs if they are not on the formulary?
You may take drugs that your plan does not cover. Or you may talk to your provider about taking a different drug that your plan covers, but that drug might have a Utilization Management Requirement, such as a Prior

Authorization or Step Therapy, that keeps you from getting the drug right away. In certain cases, we may cover as much as a 30-day supply of your drug during the first 90 days you are a member of the plan.

Here is what we will do for each of your current Part D drugs that are not on the formulary, or if you have limited ability to get your drugs:

- We will temporarily cover a 30-day supply of your drug unless you have a prescription written for fewer days (in which case we will allow multiple fills to provide up to a total of 30 days of a drug) when you go to a pharmacy.
- There will be no coverage for the drugs after your first 30-day supply, even if you have been a member of the plan for less than 90 days, unless a formulary exception has been approved.

If you are a resident of a long-term care facility and you take Part D drugs that are not on the formulary, we will cover a 31-day supply unless you have a prescription written for fewer days (in which case we will allow multiple fills to provide up to a total of 31 days of a drug) during the first 90 days you are a member of our plan. We will cover a 31-day emergency supply of your drug unless you have a prescription for fewer days (in which we will allow multiple fills to provide up to a total of 31 days of a drug) while you request a formulary exception if:

- You need a drug that is not on the formulary *or*
- You have limited ability to get your drugs *and*
- You are past the first 90 days of membership in the plan

Throughout the plan year, your treatment setting (the place where you receive and take your medicine) may change. These changes include:

- Members who are discharged from a hospital or skilled-nursing facility to a home setting
- Members who are admitted to a hospital or skilled-nursing facility from a home setting
- Members who transfer from one skilled-nursing facility to another and use a different pharmacy
- Members who end their skilled-nursing facility Medicare Part A stay (where payments include all pharmacy charges) and who now need to use their Part D plan benefit
- Members who give up Hospice Status and go back to standard Medicare Part A and B coverage
- Members discharged from chronic psychiatric hospitals with highly individualized drug regimens

For these changes in treatment settings, Humana will cover as much as a 31-day temporary supply of a Part D-covered drug when you fill your prescription at a pharmacy. If you change treatment settings multiple times within the same month, you may have to request an exception or prior authorization and receive approval for continued coverage of your drug. Humana will review requests for continuation of therapy on a case-by-case basis understanding when you are on a stabilized drug regimen that, if changed, is known to have risks.

Transition extension

Humana will consider on a case-by-case basis an extension of the transition period if your exception request or appeal has not been processed by the end of your initial transition period. We will continue to provide necessary drugs to you if your transition period is extended.

A Transition Policy is available on Humana's Medicare website, **Humana.com**, in the same area where the Prescription Drug Guides are displayed.

Humana Formulary

The formulary that begins on the next page provides coverage information about the drugs covered by Humana. If you have trouble finding your drug in the list, turn to the Index that begins on page 28.

Remember: This is only a partial list of drugs covered by Humana. If your prescription drug is not listed in this partial formulary, please visit our website at **Humana.com**.

Your Humana plan has additional coverage of some drugs. These drugs are not normally covered under Medicare Part D and are not subject to the Medicare appeals process. These drugs are listed separately on page 27.

How to read your formulary
The first column of the chart lists categories of medical conditions in alphabetical order. The drug names are then listed in alphabetical order within each category. Brand-name drugs are CAPITALIZED and generic drugs are listed in lower-case italics. Next to the drug name or Utilization Management column, you may see an indicator to tell you about additional coverage information for that drug. You might see the following indicators:
GC - Tier 1 or Tier 2 drugs that are covered in the gap
DL - Dispensing Limit; Drugs that may be limited to a 30 day supply, regardless of tier placement.
MO - Drugs that are typically available through mail-order. Please contact your mail-order pharmacy to make sure your drug is available.
LA - Limited Access; The health plan has authorized certain pharmacies to dispense this medicine, as it requires extra handling, doctor coordination or patient education. Please call the number on the back of your ID card for additional information.

The second column lists the tier of the drug. See page 5 for more details on the drug tiers in your plan.

The third column shows the Utilization Management Requirements for the drug. Humana may have special requirements for covering that drug. If the column is blank, then there are no utilization requirements for that drug. The supply for each drug is based on benefits and whether your health care provider prescribes a supply for 30, 60, or 90 days. The amount of any quantity limits will also be in this column (Example: "QL - 30 for 30 days" means you can only get 30 doses every 30 days). See page 6 for more information about these requirements.

Care and communication on your terms

Your privacy and well-being are important to us. There may be times when you want a family member or friend to talk to Humana on your behalf.

To make that possible, you must first complete a consent for release of protected health information form. This form will allow you to choose a trusted individual who can have access to your protected health information. We would consider this person to be your family or friend caregiver.

This is not a power of attorney (POA). To have someone help you enroll or to request account changes or updates, you must submit a POA or other authorization under state law to allow them to act on your behalf. You can submit POA and PHI consent forms together.

If you complete the PHI form and grant authorization to someone, we will consider that individual your caregiver who can:

- Speak to Humana on your behalf about the plan—but may not make or request any account changes or updates (unless they are your POA or have other legal authorization from the state to act on your behalf)
- Keep track of your benefits and claims
- Get answers to healthcare coverage questions
- Receive helpful information and advice on caregiving from Humana

How to get started*

You have three options for completing and submitting your consent form.

1. If you have a MyHumana account or plan to create one after enrolling, you can complete a consent form online from the “Accounts & Settings” page.
2. Your agent can utilize one of our sales systems to help you complete a consent form electronically as part of your enrollment.
3. Complete the paper form included with this packet (after you have submitted your application and received your Humana member ID card).

You don’t need to use this consent form to authorize an individual if you are also submitting a POA or other legal authorization for the same individual.

* If you have previously submitted a consent form for this individual, you do not need to submit again at this time. We will notify you if your consent is due to expire.

Scope of Sales Appointment Form

It's important for you to understand the type of products that you can choose to discuss before your appointment with a licensed Humana sales agent. The Centers for Medicare & Medicaid Services requires sales agents to document the scope of any personal/individual marketing appointment beforehand. All information provided on this form is confidential, and a separate form should be completed by each beneficiary or his/her legally authorized representative. We look forward to speaking with you.

Stand-alone Medicare prescription drug plans (Part D)

Medicare prescription drug plan (PDP) –
A stand-alone drug plan that adds prescription drug coverage to Original Medicare and some other Medicare plans.

Medicare Advantage plans (Part C)

A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes offers Part D prescription drug coverage and other additional benefits. There are different types of MA plans, such as:

Health maintenance organization (HMO) plan –
A Medicare Advantage plan that typically requires you to see only in-network providers and get referrals from a primary care doctor.

Preferred provider organization (PPO) plan –
A Medicare Advantage plan where in most cases you pay less if you use in-network doctors, and referrals from a primary care doctor are not required.

Private fee-for-service (PFFS) plan –
A Medicare Advantage plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you—not all providers will.

Special Needs Plan (SNP) – A Medicare Advantage plan that has a benefits package designed for people with special healthcare needs. Examples of groups served include people who have both Medicare and Medicaid, reside in nursing homes, and/or have certain chronic medical conditions.

Medicare Supplement

Medicare Supplement plans are standardized plans that can be bought with varying coverage options to help supplement your Original Medicare plan. Medicare Supplement plans have no provider networks and help pay some of the costs that Original Medicare does not pay. Medicare supplement plans cannot be held with a Medicare Advantage plan, as they must be separate and distinct.

Dental

Dental plans are available at varying levels of coverage at in-network and out-of-network providers.

Vision

Vision plans are available at varying levels of coverage at in-network and out-of-network providers.

Hospital indemnity

Hospital indemnity plans cover some of the costs associated with hospital stays that may not be covered by a primary health plan.

The licensed sales agent who will discuss the products with you is either employed or contracted by a Medicare plan. They do not work for the federal government. This licensed sales agent may also be paid based on your enrollment in a plan.

Answering non-required fields is your choice. You can't be denied coverage if you don't complete them.

Initial Enrollment Period (IEP) and Initial Coverage Election Period (ICEP)

- If Part A and Part B dates are the same, the election period spans 7 months: 3 months prior to the month you become eligible, the month you become eligible, and 3 months after the month you became eligible.
- If Part A and Part B dates are different, the election period spans 3 months: 3 months prior to the month of the later effective date (often Part B), only for enrollment into a Medicare Advantage (MA)-only plan or a Medicare Advantage prescription drug (MAPD) plan. If enrollment is for a prescription drug plan (PDP), check to see if the 7-month IEP may still be available.
- The coverage start date is based on factors such as Medicare entitlement and the submission of the completed enrollment form.

When inputting your Medicare Number on the enrollment form, print it exactly as it is on your Medicare card. N indicates a number, A indicates an alphabetic character, and E indicates either a number or alphabetic character. Medicare numbers will not start with a zero or contain the letters B, I, L, O, S or Z.

Enrollment periods may overlap. Ensure you mark any Special Election Period (SEP) oval that applies to you from the list of SEP statements on page 4 of the enrollment form. When enrolling specifically during an SEP, one of the SEP statements must be true to be eligible for an SEP. Agents, please refer to the Enrollment Options Job Aid (DMS-024) found in Humana MarketPoint University in Vantage if you do not see the SEP listed on page 4, or contact the Agent Support Unit for assistance.

PLEASE READ THIS IMPORTANT INFORMATION

If you currently have health coverage from an employer or union, joining Humana could affect your employer or union healthcare benefits. You could lose your employer or union health coverage if you join Humana.

By completing this enrollment form, I agree to the following:
If I am enrolling in a Medicare Advantage health plan that has a contract with the federal government, I will need to keep my Medicare Parts A and B to stay in the plan. I must continue to pay my Medicare Part B premium. If I am enrolling in a Medicare prescription drug plan, I will need to keep my Medicare Parts A or B coverage. It is my responsibility to inform Humana of any prescription drug coverage that I have or may get in the future. **I understand that if I don't have Medicare prescription drug coverage, or creditable prescription drug coverage (as good as Medicare's), I may have to pay a late enrollment penalty if I enroll in Medicare prescription drug coverage in the future.** With few exceptions, I can only be in one Medicare Advantage health plan or Medicare prescription drug plan at a time. I understand that my enrollment in my selected plan may end my enrollment in another Medicare Advantage health plan or prescription drug plan. Enrollment in my selected plan is generally for the entire year.

I understand that when my Humana coverage begins, I must get all of my medical and prescription drug benefits from Humana. Benefits and services provided by Humana and contained in my "Evidence of Coverage" document (also known as a member contract or subscriber agreement) will be covered. Neither Medicare nor Humana will pay for benefits or services that are not covered. I will abide by the rules of my Evidence of Coverage. Once I am a member of Humana, I have the right to appeal plan decisions about payment or services if I disagree.

This Humana plan serves a specific service area. If I move out of the area that this Humana plan serves, I need to notify Humana so I can disenroll and find a new plan in my new area. I understand that Medicare beneficiaries are generally not covered under Medicare while out of the country, except for limited coverage near the U.S. border.

Once Humana has received my enrollment form, I may get a verification letter to make sure that I understand how my plan works and to confirm my intent to enroll. This is not a secondary plan to Medicare Parts A and B. Humana pays instead of Medicare, and I will be responsible for the amounts that Humana doesn't cover, such as copayments and coinsurances. Medicare Parts A and B won't pay for my healthcare while I am enrolled in Humana.

- If you are requesting membership in a **Private Fee For Service (PFFS)** plan, the following statement applies: I understand that this plan is a Medicare Advantage PFFS plan which may have prescription drug coverage built in. Before seeing a provider, I should verify that the provider will accept this plan before each visit. My doctor or hospital isn't required to agree to accept the plan's terms and conditions, and thus may choose not to treat me, except for emergencies. I understand that my healthcare providers have the right to choose whether to accept a PFFS plan's payment terms and conditions every time I see them. I understand that if my provider decides not to accept PFFS, I will need to find another provider that will. I understand that if my PFFS plan doesn't offer Medicare prescription drug coverage, I may obtain coverage from another Medicare prescription drug plan.
- If you are requesting membership in a **Chronic Condition Special Needs Plan (C-SNP)**, the following statement applies: I understand this plan is a chronic condition special needs plan. My ability to enroll is based on physician verification that I have the qualifying medical condition(s).
- If you are requesting membership in an **Institutional Special Needs Plan (I-SNP)**, the following statement applies: I understand this plan is an institutional special needs plan. My ability to enroll is based on verification that my condition makes it likely that either the length of stay or the need for an institutional level of care would be at least 90 days; or, I reside in the community and meet state requirements for institutional level of care.

- I understand that I am enrolling into a Humana Medicare Advantage plan or a Humana Medicare prescription drug plan and not a Medicare Supplement, Medigap, Medicare Select or Medicaid plan.

The information on this enrollment form is correct to the best of my knowledge. I understand that if I intentionally provide false information on this form, I will be disenrolled from the plan.

Release of Information:

By joining this Medicare plan, I acknowledge that Humana will share my information with Medicare, who may use it to track my enrollment, to make payments, and for other purposes allowed by federal law that authorize the collection of this information (see Privacy Act Statement below).

Privacy Act Statement:

The Centers for Medicare & Medicaid Services (CMS) collects information from Medicare plans to track beneficiary enrollment in Medicare Advantage (MA) Plans, improve care, and for the payment of Medicare benefits. Sections 1851 and 1860D-1 of the Social Security Act and 42 CFR §§ 422.50 and 422.60 authorize the collection of this information. CMS may use, disclose and exchange enrollment data from Medicare beneficiaries as specified in the System of Records Notice (SORN) "Medicare Advantage Prescription Drug (MARx)", System No. 09-70-0588. **Your response to this form is voluntary. However, failure to respond may affect enrollment in the plan.**

Individuals experiencing homelessness:

If you want to join a plan but have no permanent residence, a Post Office Box, an address of a shelter or clinic, or the address where you receive mail (e.g., social security benefit checks) may be considered your permanent residence address.

Official U.S. Government Medicare Information

CMS CENTERS FOR MEDICARE & MEDICAID SERVICES

Humana - H0028

For 2023, Humana - H0028 received the following Star Ratings from Medicare:

Overall Star Rating:	★★★★☆
Health Services Rating:	★★★★☆
Drug Services Rating:	★★★★☆

Every year, Medicare evaluates plans based on a 5-star rating system.

Why Star Ratings Are Important

Medicare rates plans on their health and drug services.

This lets you easily compare plans based on quality and performance.

Star Ratings are based on factors that include:

- Feedback from members about the plan's service and care
- The number of members who left or stayed with the plan
- The number of complaints Medicare got about the plan
- Data from doctors and hospitals that work with the plan

More stars mean a better plan – for example, members may get better care and better, faster customer service.

The number of stars show how well a plan performs.

★★★★★ EXCELLENT
★★★★☆ ABOVE AVERAGE
★★★☆☆ AVERAGE
★★☆☆☆ BELOW AVERAGE
